

GO BABY GO

BOUNDLESS MOBILITY

Sponsor a fleet of cars or a single car for our new Go Baby Go Program.

Go Baby Go gives infants, toddlers, and young children with disabilities the opportunity to explore their world using adaptive power cars. Engineered to specifically meet the needs of each individual child, these cars enhance peer interaction, and increase cognitive and motor skill development. These are critical components in fostering health and wellbeing and setting the stage for exercise and involvement in sports and recreational activities.

This is a new program for the Adaptive Sports Connection. Our goal is to fund a fleet of 50 cars this year for children throughout Central Ohio.

	Go Baby Go Boundless Mobility \$25,000	Freedom \$15,000	Laughter \$10,000	Joy \$5,000	Fun \$2,500	Go \$500
