Adaptive sailing information

An Adaptive Sailing Resource Manual has been written by US Sailing and is available as a free download. You do have to fill in some information to request the free download but once you do you will quickly be given a link for the actual download. Although some of the manual is geared towards larger sailboats (where they can even place a wheelchair onboard the boat instead of transferring a participant out of a wheelchair onto the boat) there are still many things applicable to our participants, sailboats, and program.

Ohio Boating Laws and Guide

Both the skipper and the crew need to know the laws relevant to the boat they are sailing/operating. In addition to boating laws, rules, and guidelines, the Ohio Boat Operators Guide contains safety and other practical information. The link below takes you to a page where you can read the Ohio boating laws or download a PDF of the Ohio Boat Operator's Guide
